

Taking away the myth that seismic is complicated & expensive

We will work with you and provide fully compliant solutions with simple no fuss engineering designs.

Seismic Services

Business Solutions by  DRILLCUT

Seismic Made Simple.

Take the complexity out of seismic. Our Seismic Design Services deliver compliant solutions customised to your project for a fraction of the cost of competitors. Our proprietary systems come with a guarantee of simplicity, while giving you the peace of mind that your work is compliant with AS1170.4.

At Drillcut we have built an expertise in seismic engineering and offer products and systems catering for everyday applications right through to some of the most complex projects.

We offer up seismic engineering consulting advice, so if an off the shelf solution is not readily available, a customised solution that works will be developed.

See below for just a few of the locations our seismic system has been successfully implemented throughout the country.

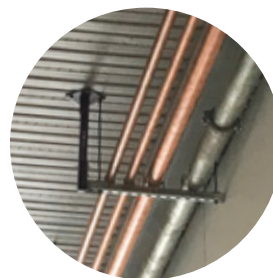

- Quay Quarter
- Two Melbourne Quarter
- Melbourne Connect
- The Ribbon
- Hospitals including: Cabrini, Shepparton,
- Deakin University Melbourne
- Star Casino
- Westmead Nepean & Campbelltown
- Airtrunk (Australia's largest hyperscale data centre)

Our specially engineered DCS brackets can be retrofitted to existing services.

No confusing drawings. Simple, easy to understand instructions.

Eliminates the need for angle bracing in congested areas.

Neat, compact bracing makes for easy installation on-site.

Need an onsite consultation? sales@drillcut.com.au or call us today on **1800 374 552** for more information.
