

New stack riser clustered fire collars.

Save crucial space and install time
on-site, for all types of pipe.

Stack Riser Fire Collar

Supplied by  DRILLCUT

* For a detailed list of approved applications enquire with Drillcut

Fully compliant clipped together cluster system.

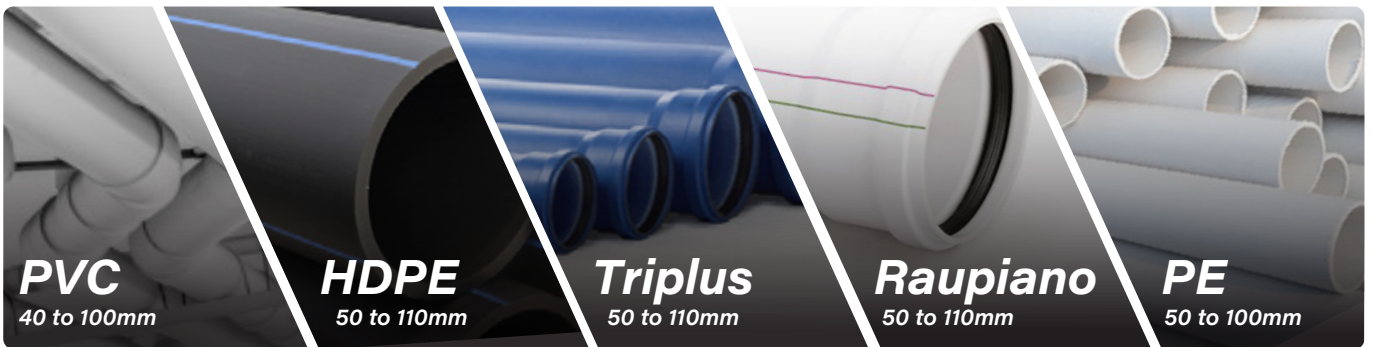

Snap's stack riser collars can be used for pipes from 40mm up to 110mm, you can cluster up to 10 x 2 collars in one installation. Simply clip together at the base and install using the removable cap and locator plate.

Specially engineered to clip together, the square base decreases floor area required in risers and other tight spaces.

Want to see it in action?

Book a time today at our Drillcut Academy for a first hand demonstration of installation and application.

The collars cover a wide range of pipe types and sizes. Fittings can be pushed all the way inside the collar.

Like all Snap Fire Collar products you have peace of mind the product has been tested thoroughly to Australian standards.

- When installed by itself the collar provides up to 3 hours protection
- No sealing annular gaps of less than 10mm is required
- Metal deck plates and extensions are also available

Make a booking through sales@drillcut.com.au or call us today on **1800 374 552** for more information.
